Dated: 26 April 2024

Proceedings of price fixation committee of ornamental plants for landscape

A meeting was held for fixation of price for ornamental plants produced at CIAH, Bikaner and the following staff and external expert participated in the meeting.

Attendees

1. Dr. Dhurendra Singh, I/c Head Crop production
2. Dr. S.R. Meena, Principal Scientist
3. Dr. D.K.Sarolia, I/c PME
4. Dr. K.L.Kumawat, I/c Farm
5. Dr. Ramesh Kumar, Sr. Scientist
6. Sh. Mahendra K Choudhary, Scientist, Nursery unit
7. Sh. Ravi Nandu, AO
8. Sh. Sanjay Patil, I/c FAO
9. Ms. Manisha Kanwar, Assistant Forester, Beechwal, Bikaner

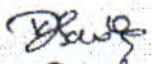

Discussion:

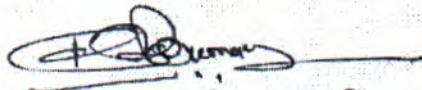

Thorough discussion was held on request submitted by the In-Charge Landscape Unit via proper channel. It was observed that most of the plants are ready for sale and some are in production pipeline. With the consideration of resources used for propagation the material, resource crunch being faced by the institute and scope for sale of excess material in the market. The committee considered the request for fixing price of listed plants. The following suggestions emerged from the discussion.

Suggestion emerged from the meeting

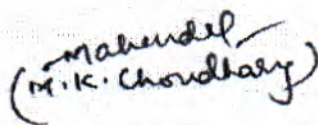

1. **Focus on Easy-to-Propagate, hardy Plants with given resources:** Concentrate on producing plants that have higher market demand and are easy to propagate/ adaptable plants. This will optimize the use of resources and maximize the profitability of the landscape unit.
2. **Select plant based on availability of mother Plants:** Ensure that the selected plants are feasible to propagate and maintained with the resources at hand. No extra resources will be provided for this activity due to paucity of labour, water etc.
3. **Prior indent based activity without compromising the major activities of the institute:** The Technical In Charge of Land scape should seek prior permission from competent authority and should work with available resources where institute research activities will be prioritized.

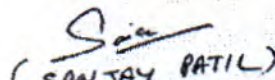

Committee examined the proposal and recommended the price of below listed ornamental plants by considering into the local market prices and prices of other government institutions.
